

V₄ CANON

Same DNA. Clearer information.

Page 1 is canon. Every other screen replicates.

No screen invents its own button.

Keep

Cosmic background. Bone-white chrome. 0.5px hairlines.

Transparent frost. Capsule controls. Subtle inset highlights.

Restrained halos. Minimal motion. Only important things glow.

No gradient pills, heavy borders, light sweeps or competing glows.

Typography

Jost 400 / 500. Use 600 only when necessary.

Cormorant only for branding, major display titles and rare editorial moments.

Never for data, numbers, statuses, forms, dates, CRM or system information.

12 Metadata

14 UI and table data

18 Section heading

28 Major metric: 12,345

Four functional sizes. Brand displays retain the original V3 scale.

Numbers: Jost Medium + tabular numerals.

Hierarchy comes from size, weight, spacing and contrast. Never decorative serif.

V4 CANON

More information. Less decoration.

Consumer MAYA can be cinematic. Admin MAYA must be precise.

Glass and controls

Capsules: transparent fill, 100px radius, 0.5px white hairline.
Navigation and overlays: ~22px blur, restrained saturation and inset light.
Dense tables: quieter transparent panels; no glow or decorative shadows.
Hover: subtle white tint. Selected: very subtle MAYA blue.
8px spacing base. Preserve native scrolling and existing interactions.

Lead Station

Name: primary. Status: immediate. Notes: secondary. Date/tier: tertiary.
Jost throughout. More breathing room, fewer borders, no unnecessary glow.

Booked / Delivering	#4ADE80
In progress	#FBBF24
Cancelled / error	#FDA4AF
Inactive / Not contacted	#B5BDC8

Color communicates state; labels always remain visible.

One system, every surface

Frontend, Admin, Affiliates, Outbound, Marketing, Brief and Operation Room.
Shared CSS: aesthetics/ui/maya-canon.css
Visible keyboard focus. Reduced motion. Readable no-blur fallback.
Keep API behavior, routes, data logic, account boundaries and actions unchanged.

Primary reference: original Aesthetics.pdf, V3, all three pages.
